FrontendMentor

<https://www.frontendmentor.io/profile/Catevika>

Excited about programming, I trained intensively in web development, with a preference for the MERN stack, after experiencing more than 15 years in international quantitative marketing. I created my online portfolio, to demonstrate my main technical skills. I am fluent in English and Italian. I wish to contribute to the success of the projects I will be assigned, in cooperation with the dedicated teams, with a focus on delivering user-oriented and optimized code for all devices.

Projects

*Projects carried out independently, in English (technologies used *)*

Support Desk

Technical support platform
(1 - 2 - 3 - 4 - 5 - 13)

ShopLineArt

Search and download free and royalty-free photos on PEXELS
